Notes to the Condensed Interim Consolidated Financial Statements

(Unaudited - Expressed in Canadian dollars, except where noted)

#### 1. NATURE OF OPERATIONS AND GOING CONCERN

Spanish Mountain Gold Ltd. (the "Company" or "Spanish Mountain") is an exploration stage resource company incorporated under the *Business Corporations Act* (Alberta) and continued into British Columbia under the *Business Corporations Act* (British Columbia). The head office and principal address of the Company is located at 910 - 1111 Melville Street, Vancouver, British Columbia V6E 3V6. The address of the Company's registered office is 1500 - 1055 West Georgia Street, Vancouver, British Columbia V6E 4N7. The Company is listed on the TSX Venture Exchange under the symbol "SPA", on the Frankfurt Stock Exchange under the symbol "S3Y" and on the OTC under the symbol "SPAZF".

These unaudited condensed interim consolidated financial statements for the three and six months ended June 30, 2024 and 2023 ("financial statements") have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Accordingly, these financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

The Company is an exploration stage resource company which does not generate any revenue and has been relying on equity-based financing to fund its operations. While the Company expects to meet its financial obligations in the near term, it will require additional financing to meet its administrative costs and to continue to explore and develop its mineral property. There is no assurance that future funding will be available to sufficiently conduct further exploration and development of its mineral property. During the three and six months ended June 30, 2024, the Company incurred a net loss before income tax recovery of \$657,734 and \$1,165,420, respectively (2023 - \$277,449 and \$884,833, respectively), and as at June 30, 2024, had an accumulated deficit of \$17,702,289 (December 31, 2023 - \$16,658,829).

The application of the going concern concept is dependent upon the Company's ability to generate future profitable operations and maintain an adequate level of financial resources to discharge its on-going obligations. There is no assurance that sufficient future funding will be available on a timely basis or on terms acceptable to the Company. Management seeks to raise capital, when necessary, to meet its funding requirements and has undertaken available cost-cutting measures. There can be no assurance that management's plan will be successful as it is dependent on prevailing capital market conditions and the availability of other financing opportunities. These conditions indicate the existence of material uncertainties that may cast significant doubt as to the ability of the Company to meet its obligations as they come due, and accordingly, the appropriateness of the use of accounting principles applicable to a going concern.

#### 2. BASIS OF PREPARATION

#### a) Statement of compliance

These financial statements were approved by the Board of Directors and authorized for issue on August 28, 2024.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS Accounting Standards") as issued by the International Accounting Standards Board applicable to the preparation of interim financial statements including International Accounting Standard 34 *Interim Financial Reporting*. These financial statements do not include all disclosures required for annual audited financial statements. Accordingly, they should be read in conjunction with the notes to the Company's audited financial statements for the years ended December 31, 2023 and 2022 (the "Annual Financial Statements").

#### b) Basis of measurement

These financial statements have been prepared on a historical cost basis except for certain financial instruments which are measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for certain cash flow information.

#### c) Functional and presentation currency

These financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiary.

## Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended June 30, 2024 and 2023

(Unaudited - Expressed in Canadian dollars, except where noted)

## 2. BASIS OF PREPARATION (continued)

## d) Basis of consolidation

These financial statements include the accounts of the Company and its subsidiary. All intercompany transactions and balances are eliminated on consolidation. Control exists where the parent entity has power over the investee and is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Subsidiaries are included in the financial statements from the date control commences until the date control ceases. These financial statements include the accounts of the Company and its wholly owned Canadian subsidiary, Wildrose Resources Ltd. ("Wildrose").

## e) Reclassification of prior period presentation

Certain expenses in the prior period have been reclassified for consistency with the current period presentation. These reclassifications had no effect on the reported results of operations. An adjustment has been made to the condensed interim consolidated statements of loss and comprehensive loss for the three and six months ended June 30, 2023 to reclassify consulting fees out of office and administrative and into consulting.

#### 3. MATERIAL ACCOUNTING POLICIES

In the preparation of these financial statements, the Company used the same accounting policies as those applied and disclosed in the Annual Financial Statements.

## 4. SIGNIFICANT JUDGMENTS AND SOURCES OF ESTIMATION UNCERTAINTY

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances and which form the basis of making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and further periods if the revision affects both current and future periods.

In the preparation of these financial statements, the Company used the same accounting estimates and judgments as those applied and disclosed in the Annual Financial Statements.

#### 5. ACCOUNTS RECEIVABLE

	67,962	127,689

#### 7. MINERAL PROPERTY

#### Spanish Mountain Property, British Columbia

The property is subject to various Net Smelter Returns ("NSR") at 2.5%. The Company may, at its option, reduce the NSR to 1.0% or 1.5% dependent on the underlying mineral claims with a maximum aggregate payment of \$1,000,000 to the vendors. The NSR may be purchased by the Company for \$500,000 per 1% NSR.

In accordance with regulatory requirements, as at June 30, 2024, the Company holds a number of GICs aggregating in the sum of \$91,000 (December 31, 2023 - \$91,000) in safekeeping for the Government of British Columbia which are presented as deposits for reclamation in the statements of financial position. The security will be released once the Company fulfils its obligations pursuant to its mineral exploration permit.

A summary of exploration expenditures incurred on the Company's mineral property is as follows:

## 12. SHARE CAPITAL (continued)

A summary of the Company's weighted average inputs used in the Black-Scholes option pricing model for the share purchase warrants is as follows:

	June 30,	December 31,
	2024	2023
Share price	\$0.18	\$0.23
Exercise price	\$0.25	\$0.25
Expected life	2 years	2 years
Risk-free interest rate	4.26%	3.73%
Expected volatility	94.42%	106.16%
Expected annual dividend yield	0.00%	0.00%

#### d) Stock options

The Company's incentive stock option plan ("Option Plan") authorizes the issuance of options up to a maximum of 10% of the Company's issued common shares. The maximum number of stock options issuable has been fixed at 37,293,698 by a special resolution of shareholders since 2023. The exercise price of any stock option granted will not be less than the fair market value of a common share at the time of the grant. The expiry date for each stock option, set by the Board of Directors at the time of issue, shall not be more than ten years after the grant date. Unless stipulated by the Board of Directors, stock options granted generally vest 25% on the date of grant and a further 25% vest every three months following the date of grant.

During the six months ended June 30, 2024, 600,000 stock options were forfeited following the termination of certain consultants of the Company.

On May 27, 2024, the Company granted 1,425,000 stock options exercisable at \$0.24 per share to certain officers and directors. The options are exercisable for a 10-year term expiring on May 27, 2034. The options vest periodically over 18 months. The fair value of the options was determined to be \$242,207 using the Black-Scholes option pricing model.

On June 21, 2024, the Company granted 2,625,000 stock options exercisable at \$0.19 per share to certain officers and directors. The options are exercisable for a 10-year term expiring on June 20, 2034. The options vest periodically over 18 months. The fair value of the options was determined to be \$403,371 using the Black-Scholes option pricing model.

A summary of the Company's weighted average inputs used in the Black-Scholes option pricing model for the stock options granted is as follows:

	June 30,	December 31,
	2024	2023
Share price	\$0.19	\$0.18
Exercise price	\$0.21	\$0.18
Expected life	10 years	5 years
Risk-free interest rate	3.44%	2.37%
Expected volatility	94.00%	107.87%
Expected annual dividend yield	0.00%	0.00%

The weighted average remaining life in years represents the remaining period that the options granted are expected to remain unexercised. The volatility rate is based on the historical volatility of comparable companies. The risk-free rate is based on Canada government bonds with a term similar to the expected life of the stock options.

	341,176	141,245	707,117	573,261

<sup>(1)</sup> During the six months ended June 30, 2024, the Company paid contractual termination benefits totaling \$nil (2023 - \$240,000), to key management personnel.

As at June 30, 2024, accounts payable and accrued liabilities included \$24,492 (December 31, 2023 - \$4,598) owed to certain officers. Interest is not charged on outstanding balances and there are no specified terms of repayment.

#### 14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

As at June 30, 2024, the Company's financial instruments consist of cash and cash equivalents, accounts receivable (excluding sales tax recoverable), rent deposit, deposits for reclamation and accounts payables and accrued liabilities, and are classified as and measured at amortized cost.

The carrying values of cash and cash equivalents, accounts receivable (excluding sales tax recoverable), rent deposit, deposits for reclamation and accounts payable and accrued liabilities, approximate their fair values due to their short term to maturity.

The Company's risk exposure and the impact on the Company's financial instruments are summarized below.

#### a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to fulfill its contractual obligations and arises principally from the Company's holdings of cash and cash equivalents, deposits for reclamation, and accounts receivable. The Company manages credit risk in respect of cash and cash equivalents and deposits for reclamation by holding these at a major Canadian financial institution with strong investment-grade ratings by a recognized agency. The Company considers the credit risk related to accounts receivable to be minimal.

Concentration of credit risk exists with respect to the Company's cash and cash equivalents, as all amounts are held at one major Canadian financial institution.

A summary of the Company's cash and cash equivalents is as follows:

	June 30,	December 31,
	2024	2023
	\$	\$
Cash held in bank accounts	846,048	108,020
Term deposits	3,325,353	3,198,982
	4,171,401	3,307,002

For the six months ended June 30, 2024, the weighted average interest rate earned on the Company's cash, cash equivalents and short-term investments was 4.08% (2023 - 4.41%).

For the three and six months ended June 30, 2024 and 2023

(Unaudited - Expressed in Canadian dollars, except where noted)

## 14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

#### b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying its financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. The Company has cash and cash equivalents at June 30, 2024 of \$4,171,401 (December 31, 2023 - \$3,307,002) in order to meet its current liabilities. As at June 30, 2024, the Company had accounts payable and accrued liabilities of \$671,466 (December 31, 2023 - \$404,755), which have contractual maturities of 90 days or less and a current portion of lease liability of \$62,562 (December 31, 2023 - \$59,885). The amount of the Company's remaining undiscounted contractual lease payments for the lease liability is \$287,751 (December 31, 2023 - \$324,008). The Company is exposed to liquidity risk through accounts payable and accrued liabilities and lease liability.

## c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to interest rate and foreign currency risk as follows:

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices.

The Company's cash and cash equivalents are held in bank accounts earning interest at variable interest rates. Due to the short-term nature of these financial instruments and the prevailing interest rate environment, fluctuations in market rates do not have a significant impact on estimated fair values as at June 30, 2024.

#### Foreign currency risk

Foreign currency risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is not exposed to foreign currency risk as at June 30, 2024.

#### 15. CAPITAL MANAGEMENT

The Company's primary source of funds has been obtained through the issuance of share capital. The Company does not use any sources of financing that require fixed payments of interest and principal and is not subject to any externally imposed capital requirements.

The Company defines its capital as all components of shareholders' equity. Capital requirements are determined by the Company's exploration activities on its mineral property interests and administrative overhead. To effectively manage the Company's capital requirements, the Company has a planning and budgeting process in place to ensure that adequate funds are available to meet strategic goals.

In accordance with its investment policy, the Company periodically invests its capital in liquid investments to obtain returns that are considered reasonable under prevailing market conditions. The investment decision is based on cash management to ensure working capital is available to meet the Company's short-term obligations while maximizing liquidity and returns of unused capital.

Although the Company has been successful at raising funds in the past through the issuance of capital stock, there can be no assurances that it will continue to do so in the future. There were no changes in the Company's approach to capital management during the six months ended June 30, 2024.

Deferred income tax assets (liability), net	-	-

The Company recognizes tax benefits on losses or other deductible amounts where it is probable the Company will generate taxable income to utilize its deferred income tax assets.

The Company is eligible for British Columbia mining exploration tax credits ("BC METC"), based on qualified mineral exploration expenditures incurred for determining the existence, location, extent or quality of a mineral resource in the province of British Columbia. The tax credit is calculated as 30% (for the area in which the Company operates) of qualified mineral exploration expenditures incurred to the extent such expenditures are not renounced or committed with respect to issued flow-through shares, if any. The filing for the BC METC is subject to an assessment process, which may include an audit by the taxation authorities. The amount ultimately recoverable may be different from the amount claimed.

A summary of the Company temporary differences and tax losses is as follows:
